

2013 CPA Membership: Update Your Address with CPA to Receive Your Card

Durham

Starting the 2013 CPA League Year, CPA is changing the look of the CPA membership card and the process with which you receive it. As seen to the left, the new CPA membership card has been redesigned and it will be printed on a permanent card (hard and sturdy like your license). In addition, instead of the CPA cards being sent to our League Office for distribution to you, your CPA membership card will come directly to you in the mail with your CPA membership packet!

Each following year, you will receive a sticker in your membership packet to update the year on your membership card to show that your membership is still active (like on car registrations). You will receive a new card every 5 years.

With that said, you **MUST** have a correct address on file with CPA to receive your membership packet and your membership card for 2013. If you have an asterisk (*) next to your name on the weekly scoresheet or if you have moved since joining the CPA there are 2 ways to correct this:

1. Ask your Team Captain for a CPA membership application and return it with your team's weekly scoresheets.
2. Go to members.poolplayers.com where you see your team and individual stats. Log in to your account, or create an account if you haven't done so already, and click on your profile to check and update your mailing address and other personal information.

Please note: If your local CPA office has to order a replacement card for you, there will be a \$5 fee. So please make sure that your information is up-to-date ASAP before January.

Don't forget that everyone will need to renew their CPA membership for 2013 beginning the first week of the 2013 Spring Session. You can renew and pay your membership online from your members.poolplayers.com account.
